-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1. Claims 1-40 are objected to because of the following informalities:

In claims 1,23 and 40, the applicant includes the measuring device as part of the image forming apparatus which is not accurate. The frictional resistance of the photoconductor is probably measured (with the specific type of measuring device) at a manufacturing site for the photoconductor and is not considered part of the image forming apparatus. Thus when applicant recites "an image forming apparatus ... comprising a photoconductor...charger... developing device...transfer device... cleaning device... **and a belt that is suspended in a circumferential direction of the photoconductor, the belt being a flat type belt made of polyurethane, and the belt having a JIS-A hardness of 83 degrees, a width of 5mm, a length of 325 mm, a thickness of 2mm, and a dead weight of 4.58 grams, wherein a 100 gram load is hung at one end of the belt so that the contact length thereof with the photoconductor is 3mm and a contact area is 15 mm², ... a digital force gauge is fixed to the other end of the belt...**" the applicant is claiming the measurement device as part of the image forming apparatus which it is not. It is suggested that the applicant should re-arrange the claims to recite the image forming apparatus which uses a photoconductor having the specified frictional resistance **wherein the frictional resistance is measured by a measuring apparatus having a belt suspended from the photoconductor....** (or any other re-wording).

Appropriate correction is required.

2. Claims 1-40 are allowable over the prior art of record.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Beatty whose telephone number is (571) 272-2130. The examiner can normally be reached on M-F from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Arthur Grimley, can be reached on (571) 272-2136. The fax
